Academic education

PhD in Political and Social Science

University Pompeu Fabra (Spain) – Department of Political and Social Science
Current

Member of DONTHURTME project – *Trayectorias de vida de agresores y víctimas de violencia en pareja*

Master of Science in Sociology and Social Research

University of Trento (Italy) – Department of Sociology and Social Research

Double Degree Program with University Pompeu Fabra

Received on 12.09.2023, defending the thesis: “The Role of Women’s Leadership: Exploring the Impact of Women in Top Positions on their Subordinates’ Salary.” [Laurea Magistrale in Sociology and Social Research, classe LM-88 “Sociologia e Ricerca Sociale”].

Research Master in Sociology and Demography

University Pompeu Fabra (Spain) – Department of Political and Social Science

Double Degree Program with University of Trento

Received on 31.07.2023, defending the thesis: “The Role of Women’s Leadership: Exploring the Impact of Women in Top Positions on their Subordinates’ Salary.”

Bachelor in Sociology

University of Bologna (Italy) – Department of Sociology and Business Law

Received on 11.10.2021, defending the thesis: “Rape culture and Patriarchy in Italian culture. An attempt at intervention”. [Laurea Triennale in Sociologia, classe L-40 “Sociologia”].

Further education

A.Y. 2025-2026

Institut national d'études démographiques (INED) (France)

Visiting researcher during PhD program (3 months)

A.Y. 2020-2021

Bachelor in Sociology

University Complutense of Madrid (Spain)

Erasmus exchange student during BA program (5 months)

Teaching Experiences

A.Y. 2025-2026

University Pompeu Fabra, Department of Political and Social Sciences (Spain)
“Labour Sociology” (4 hrs) at the BA in Political and Administration Sciences

A.Y. 2024-2025

University Pompeu Fabra, Department of Law (Spain)
“Introduction to Sociology” (20 hrs) at the BA in Criminology and Public Prevention Policies

University Pompeu Fabra, Department of Political and Social Sciences (Spain)
“Introduction to Sociology” (18 hrs) at the BA in Political and Administration Sciences

A.Y. 2023-2024

University Pompeu Fabra, Department of Political and Social Sciences (Spain)
“Introduction to Sociology” (18 hrs) at the BA in Political and Administration Sciences

Other teaching experience at the university level

April 2026

École des hautes études en sciences sociales (EHESS) (France)

Presentation on “Intimate Partner Violence and Trajectories of Victimization” (1 hour)
during a class in the course “Violences de genre: intimités, intersectionnalité, justice”
held by Mathieu Trachman, research director in the Gender, Sexuality and Inequalities
Research Unit.

March 2021

University of Bologna, Department of History Culture Civilisation (Italy)

Special intervention on “Gender inequalities and stereotypes” (1 hr) during a class of
“Labour history” course at the BA in History

Other information

Extracurricular training

A.Y. 2025-2026

2026 Summer Methods School

...

A.Y. 2024-2025

2025 Summer Methods School

Research and Expertise Centre for Survey Methodology (RECSM), Universitat Pompeu Fabra (Spain)

12 hours course “Structural Equation Modeling”

Instructor: Beth Grandfield

Description: The course offered a comprehensive introduction to Structural Equation Modeling, a flexible statistical technique that integrates regression, path, and factor analysis. It covered how to build and combine measurement and structural models, test mediation hypotheses, and evaluate data-model fit.

2025 Summer Methods School

Research and Expertise Centre for Survey Methodology (RECSM), Universitat Pompeu Fabra (Spain)

12 hours course “Factor and Cluster Analysis in Practice”

Instructor: Daniele Toninelli

Description: This course focused on two useful and frequently used exploratory multivariate methods: Factor and Cluster Analysis. They can help in acquiring a deeper knowledge about the available data, in simplifying/summarizing the available information, in better reshape the units being analyzed.

2025 Summer Methods School

Research and Expertise Centre for Survey Methodology (RECSM), Universitat Pompeu Fabra (Spain)

12 hours course “Machine Learning for Social Sciences”

Instructor: Christoph Kern

Description: The course offered a practical introduction to supervised machine learning techniques (including decision trees, random forests, and boosting) with a focus on their application in the social sciences. It explored how predictive modeling complements traditional regression approaches.

A.Y. 2023-2024

2024 Summer Methods School

Research and Expertise Centre for Survey Methodology (RECSM), Universitat Pompeu Fabra (Spain)

12 hours course “Causal inference”

Instructor: Bruno Arpino

Description: The course covered some of the most popular techniques for estimating causal effects with observational data: propensity score matching, instrumental variable regression, fixed effects models, difference-in-differences designs. Special emphasis was placed on discussing the plausibility of the identifying assumptions, the data requirements and other practical and theoretical challenges for the implementation of each method.

2024 Summer Methods School

Research and Expertise Centre for Survey Methodology (RECSM), Universitat Pompeu Fabra (Spain)

8 hours course “Introduction to R”

Instructor: Toni Rodon

Description: The course provided with the introductory tools for doing quantitative research using the R programming language. An increasing emphasis in and outside academia is being placed on the skills needed to effectively gather, handle, model, and analyse data as well as present results to a range of audiences.

Autumn 2023

University of Oslo (Norway)

4-days course “Gender equality, family change and family policy: new theoretical developments”

Instructors: Cathrine Holst, Trude Lappegård, Gerda Neyer, and Gina Schouten

Description: This PhD course zooms in on new theoretical developments in the study of family and gender. Three lines of theorizing will be covered. First, classification and categorization of new family and gender regimes and of family policies. Second, explanatory models and theories of family change, with a particular focus on the role of gender and gender equality. Third, theories of social justice, with a particular focus on the relationship between family change and equal opportunities, and the role of family policy. The course will link theoretical discussions closely to methodological discussions and empirical findings. It will be a central aim for the course to connect research and theorizing in sociology to relevant research fronts in demography, political theory and policy studies.

Participation in scientific conferences

Presentations I made

15 June 2026

ECSR

3 June 2026

EPC

2 April 2026

Institut national d'études démographiques (INED) (France)

I was invited to present my findings on intimate partner violence and victimization trajectories during one of the monthly meetings of Unit-4 on “Gender, Sexuality, and Inequalities (GENRE)” at INED.

10-13 April 2025

Population Association of America. 2025 Annual Meeting (Washington DC, US)

I presented my findings on intimate partner violence trajectories in a poster format. See the presentation outline [here](#).

The Population Association of America’s annual meeting is the premier conference of demographers and social and health scientists from the United States and abroad. Here

demographers at all career stages are afforded the opportunity to present their research in oral and poster sessions, hear others' findings, and network with their peers. Since PAA's first conference in 1932, much important research has been presented on topics ranging from migration to reproductive health to race and gender issues.

1-3 November 2024.

2nd Global Conference on Gender Studies (Copenhagen, Denmark)

I presented preliminary results of a paper (as of November 9 not yet published) on the topic of trajectories of victimization by intimate partner violence. The abstract has been published [here](#) (last viewed: 9.11.2024)

The [conference](#) engaged participants from across the globe in the exploration of multidisciplinary topics such as social construction and role of gender within various societies, the meaning of gender and sex in the past and modern societies, women's contemporary and historical experiences, and the multiple social identities. The conference included an intensive program, in the form of oral and virtual presentations covering a very wide range of topics.

Presentations (made by others) on shared work

16-18 October 2024

XIV Congreso Español de Criminología “Una ciencia para un mundo en crisis” (Cáceres, Spain)

The co-author presented our paper on the trajectories of intimate partner violence victimization at the [conference](#) organized by the Spanish Society of Criminological Research (SEIC).

Attendance without presentations

12-14 September 2024

ECSR 2024 Conference (Barcelona, Spain)

I participated as an attendee at the conference "Addressing Inequalities in Incomplete Revolutions" organized by the European Consortium for Sociological Research (ECSR).
